

CURRENT VACANCIES

Associate – Residential Conveyancing

Our Conveyancing department is very busy. We receive regular and repeat instructions from owner looking to move home, buy to let investors, and property developers.

Responsibilities would include advising on acquisition and disposal of residential property, both freehold and leasehold.

You will be working closely with and would effectively be the second in command to the Head of Department.

We would expect the candidate to have at least 6 years PQE, excellent organisational skills, tenacity, commercial acumen, an interest in business development and strengthening relations with clients and estate agents, and an ability to work unsupervised and as part of a team.
